VOL. XVI. NO. 63. CHARLEROI, WASHINGTON CO., PA. SATURDAY, AUGUST 28, 1915. ONE CENT

WORK OF REPAIRING CHARLEROI MONESSEN BRIDGE PROGRESSING

Mercantile Bridge Company Has Matters Well in Hand on $40,000 Job

CREOSOTE BLOCKS ARE LAID

Half of Bridge Practically Completed—Six Weeks the Time Set for Completion of Job—Wood Preserving Expert in Charge.

Work is progressing on the Charleroi-Monessen bridge and it will be only a matter of a few months when the bridge floor will be completed and ready for traffic. Workmen of the Mercantile Bridge company started to tear up the old floor about six weeks ago, but owing to material not arriving nearly three weeks was lost.

Superintendent R. G. Callahan expects to have the first half of the bridge done within a day or two. That will be 1,900 feet of creosote blocks laid. The blocks are being laid under the supervision of David E. Olds of the United States Wood Preserving company in order to insure a proper guarantee of the work.

About 40 tons of tar will be used in the operation of laying the blocks which are thoroughly soaked with tar after the heavy planks are tar washed and lined with tar paper. This is done to keep the wood preserved. The entire job is expected to be complete in six weeks.

The work has caused considerable inconvenience to street car patrons in making transfers, as well as one side of the bridge being closed to other traffic. The convenience to autoists and others when the floor is made level and with a good driving surface will repay for all the inconvenience caused.

The cost of this improvement including painting the under structure will be about $40,000.

GOOD MUSICAL PROGRAM FOR SERVIAN BENEFIT

Local and Visiting Talent to Participate in Affair Sunday, September 6—Pierre DeBacher Violinist.

A good program of music and oratory is being prepared as a benefit for the Servian relief fund at the Majestic theatre on Sunday, Sptember 5 at 2 o'clock. Local and visiting talent will present the musical program. Pierre De Bacher, who was formerly a first violinist with the Pittsburg Symphony Orchestra will render various numbers. The vocal soloists will be Miss Adeline Fau, soprano and Warren Kinder, Tenor. Pianists will be Miss May Barth and Miss Bethel Bowman. Among other numbers DeBacher will play the brilliant Scherzo Indien by the well known Pittsburg composer, F. Zitterbart. This composition received honorable mention at a contest of the Pittsburg Art Society and was first performed by Mr. DeBacher at a concert of prize compositions given by the Art Society at Carnegie Music Hall, Pittsburg. The speaker at the affair will be Robert W. Irwin, Esq., of Washington, who will speak on "American Neutrality."

MONESSEN HIGH SCHOOL READY FOR OCCUPANCY SEPTEMBER 6

New Equipment Installed—Electric Clock System to Automatically End The Class Periods.

When the Monessen schools open for the term on Monday, September 6, all departments of the new high school building will be put into use. It is a splendid structure well equipped with new departments, including manual training and domestic science. A new library has been secured for the new high school building, with 1,400 books having been added, making over 3,000 in all. One of the features installed is an electric program clock system with 26 secondary clocks in the class rooms controlled by a master clock in the office of the superintendent. This system needs no attention and automatically rings at the close of class periods.

The Monessen schools, under Superintendent H. E. Gress have enrolled for the coming term 3,000 pupils, this being 250 more than at the close of last term.

STATE TROOPERS AFTER AUTOISTS

Highway Commissioner Cunningham to Receive Police Assistance

WILL HUNT FOR VIOLATORS

State policemen have been ordered to co-operate with the state highway department in the enforcement of the automobile laws. Complaints have been made in a number of instances of the speed limit being exceeded and other provisions of the law being violated, especially outside of cities.

Highway Commissioner Cunningham has secured the support of Major John C. Groome, superintendent of the state police in his effort to check violations and the captains of the troops of state policemen have been instructed to have their men report all violations of the law which come under their notice, including improperly displayed registration tags, cases where only one tag is shown, reckless driving, speeding and other infractions of the law. In replying to the commissioner's request, Superintendent Groome said the troopers would comply in every particular.

In the last few months the highway department has revoked the licenses of a number of persons who operated cars recklessly or while intoxicated.

SHRAPNEL CONTRACT COMES TO CALIFORNIA

United States Government Orders Manufacture of Munitions in Monongahela Valley—Day and Night Work the Result

Work will be started next week by the California Foundry and Machine Co. on a large order for shrapnel shells for the United States government. Just how big this order is, or how long it will take the company to complete the contract is not known, but workmen are busy now preparing twelve machines for the work. When started, the machine shop will run night and day, with shifts of from fifteen to twenty men each.

The part of the order that comes to California is what is called the "nose piece" of the shell. The rough casting comes from the Westinghouse company and is machined at the local plant. Each piece must undergo a rigid test that the job is one that calls for good work and skilled operators.

Part of the material has already been received, and the superintendent of the plant will be able to produce between three thousand and five thousand of these pieces per week. Six operators are required to each piece, exclusive of the packing and boxing.

It is probable that the order will keep the factory running capacity; night and day for several months.

STATE HEALTH EXHIBIT AT WASHINGTON FAIR

Work of Department to be Shown In Display—Methods to be Shown By Which State Fights White Plague and Other Diseases.

About ten years ago 4,000 was Pennsylvania's annual toll to typhoid fever. Last year less than 1,000 victims succumbed to that disease. The arch enemy of childhood, diphtheria, was demanding and collecting twenty-five hundred lives as its yearly tribute, but the wide spread distribution of state antitoxin abetted by the quarantine regulations of the State Department of Health has reduced the fatalities from this disease to less than 1,900 in the year 1914. Whooping cough, measles, and the companion foes of young life are becoming less a menace to the early years of the "struggle for existence." Even the White Plague, has slackened its grip and confessed that the death rate from turberculosis in 1914 is 21.14 per cent less than that of 1906.

The State Department of Health is constantly issuing educational literature along the lines of prevention of disease which may be had upon application.

The State Health exhibit which will be on view of the Arden fair in Washington county is another of the department's methods for the dissemination of information. The pleasure and profit derived from a visit to this display will amply repay for the time and effort. In a tent 80 x 100 feet are shown models, maps and iharts exemplifying the work of the various divisions of his very growing department.

The Free State Tuberculosis Dispensary equipment and the models in miniature of the great Free Tuberculosis Sanitoria at Hamburg, Cresson and Mont Alto are testimonials to the State Department of Health's "War on Tuberculosis." The Bureau of Housing, a recent addition to the Department of Health is represented in the exhibit by models and enlarged photographs which tell their own story of the necessity for the state supervision over living conditions.

This display is designed to be helpful to rural as well as urban communities and the State Health Department of Health extends a cordial invitation to all to visit the Exhibit, ask questions and get a supply of Department literature.

CRIMINAL COURT FOR AUGUST IS ADJOURNED

Final Cases of Present Term are Disposed of Friday—Pleas of Gilty Entered by Various Accused Ones—One Case Continued.

The August term of criminal court was adjourned finally Friday afternoon. All the jurors were excused. There were just three cases remaining to be heard. One of these was tried, one was continued and the third a plea of guilty was entered.

There is no August term of common pleas court, so that there will be no more trials by jury until November. There will be argument and equity court between now and the November term.

Edward Moore, indicted for felonious shooting, entered a plea of guilty Friday afternoon to simple assault and battery. He was sentenced to pay the costs, fine of $1 and to undergo imprisonment in the workhouse for four months. He was at the time of the trouble a bartender for Charles Peel, who conducted a speakeasy at Langeloth. Peel Friday on several charges was sent seven months and ten days to the workhouse. Moore was alleged to have shot a man known in the case as Alfred Moore.

Moore, the man who was shot, was suposed to be in jail in Pittsburg, under the name of Braxton. A writ of habeas corpus was issued for him, but before he was brought back Friday Edward Moore had decided to enter a plea of guilty.

C. V. Barto, of California, indicted for false pretense, was acquitted but was assessed the costs. John Buglak was the prosecutor. It was claimed that when settlement was made that Barto claimed full payment had been made. Afterwards, it was claimedl mechanic's lien was entered against the prosecutor. The court ruled out the false pretnese charge and gave the case to the jury on a question of costs.

The case of the commonwealth against T. J. Barnard, of Claysville, Greene county, indicted for violating the motor vehicle laws, has been continued.

PLAYGROUNDS SEASON CLOSES; NEW PLAN IN FORCE THIS YEAR

Child Welfare Circle Looks After Play—Operated by School Board Last Year

SUPT. AUER TO LEAVE SOON

Will Take Trip to Holland, Then Return After a Visit to Take up Physical Culture Studies at University of Pittsburg.

After a successful season, the playgrounds were closed this week, and W. E. Auer, the superintendent, is now putting things in shape so that he may get away by Monday. He will take a trip to Holland, his native land and then after a month or so return to Pittsburg to resume his studies there at the University of Pittsburg during the winter term.

Thursday was virtually the last day of the playgrounds. This year the playgrounds were conducted on a slightly different basis from ever before. When they were first established a committee from the Charleroi Business Men's Association conducted them under the name of the Charleroi Playgrounds Association. Then last year the playgrounds were operated by the school board. This year the Child Welfare Circle conducted them as they did also the school gardens.

According to the report of Superintendent Auer there was an active interest shown in the playgrounds this season by children. Their day and night play there was made interesting by the introduction of physical culture work. The bathing beach detracted a little from the general interest which was shown. Still the playgrounds were well patronized. Boy Scout work which Superintendent Auer directed proved attractive to boys.

Superintendent Auer will sail within a few days for Holland to visit at his former home at Hilversun. At the University of Pittsburg he is taking a course in physical culture training, expecting to take up this work in the future.

PENNSYLVANIA'S POPULATION JUMPS OVER 10,000 IN MAY

Reports of Statistics Show Notable Increase—Many Violent Deaths Reported in State.

Pennsylvania's population jumped over 10,000 in May. That month there were 19,154 births and only 8,870 deaths. It was the greatest increase recorded for any month in almost a year.

The causes of death show that pneumonia caused 804 deaths against 857 from tuberculosis of the lungs. Bright's disease and cancer ran next as causes of death with diarrhoea next. Diphtheria caused 119 deaths and 601 children died in infancy. Influenza caused 96 deaths, whooping cough 61 and measles 58.

The violent causes of death are given as 95 in mines, 90 from railroad injuries, 89 from suicide and 459 from other forms of violence.

GOOD TIME MADE IN AUTO RACES

Only One Accident Occurs to Mar Friday Program at Belle Vernon Track

GARDNER DRIVES INTO FENCE

Good time was made in Belle Vernon Friday in the automobile races conducted there under the auspices of the Automobile Racing Associaion. Hotly contested events were quite the order of the afternoon and one event was so close that only 1-5 of a second decided the winner.

Some of the best driving of the afternoon was done by G. B. Gardner of Pittsburg in his Beaver Bullet. Then he ended in the last event of the day by diving through a fence while trying to pass Wilbur Monahan in Charles W. Johnson's Packard Greyhound. The accident occurred on a bend and Gardner tore away 25 feet of fence. He and his brother, who was serving as mechanican, were tossed out of the machine several feet away but were not badly hurt.

The best time of the entire day on the three mile track was made by Wilbur Monahan in Johnson's Packard Greyhound. His time was 3:42 3-5 minutes. However, Gardner nearly equalled this record with time of 3:42 4-5 minutes.

Following were the results:

Event No. 1, free-for-all—Best in time trial, one mile, G. B. Gardner of Pittsburg, in Beaver Bullet; second, Wilbur Monahan of Uniontown in Packard Greyhound; third, Guy Woodward of Charleroi in Ford Junebug. Time 1:10 2-5.

Event No. 2, three miles—Won by A. D. Spencer of Charleroi, in Buick Wildcat; second, G. B Gardner in Beaver Bullet Time 3:53 4-5

Event No. 3, three miles—Won by G. B. Gardner in Beaver Bullet; second M. J. Hugdoc of Uniontown, in Yellow Kid Buick. Time 3:46 2-5.

Event No. 4, three miles, free-for-all—Won by Wilbur Monahan in Packard Greyhound; second G. B. Gardner in Beaver Bullet. Time 3:42 3-5.

Event No. 5, Australian pursuit race—Won by Wilbur Monahan in Packard Greyhound. Time 8:19 1-5 for seven miles.

Entered in the Post Office at Charleroi, Pa., as second class matter

ONLY TWO LEFT.

Governor Hi Johnson, of California, and George W. Perkins, head of the harvester trust, are about the only self-called Progressives who are still insisting upon a continued disruption of the Republican party in the United States.

Col. Roosevelt has declared publicly that he proposes to register as a bull mooser, but he is practically certain to vote a Republican ticket this fall. His relative, Theodore Douglass Robinson, who quit as chairman of the bull moosers in New York state and F. M. Davenport, the bull moose candidate for governor of New York last year, are in the open for a reunion of the bull moosers and Republicans and the chances are that there will be no bull moose ticket in that state this fall.

Only those so-called Progressives who are Democrats at heart, or have personal selfishness to serve, are opposing the return to the Republican party. Gov. Johnson keeps in command in his state through political confusion, but the reason for the Perkins obstinacy is mysterious even to his friends. The concerns with which he is allied have suffered immeasurably through Democratic inefficiency, and he knows and everybody knows that whatever his purpose may be the result of his policy, if extended, would be a countinuance of Democracy in power with positive blight and continued industrial unrest and business confusion.

Democracy is in power in this country by a minority vote. The Democratic party will continue in power only through bull moose assistance, and it is certain that the necessary assistance will not be forthcoming in the next Presidential campaign.

While "war orders" are saving the face of the present administration the prosperity sustained by conflicts among nations is far from being either lasting or popular, and even in its offensiveness it is far from being general.

Every 20 years or so Democracy happily by accident, comes into power, but just as regularly it is driven out after one unsatisfactory trial by the disgusted voters.

THE NATURAL RESULT

The general manager of an eastern railroad believes that the public is actually heeding the company's persistent warnings to cross tracks with care, to put it in his own words. He points out that for almost 60 days of heavy traffic but one person has been injured. The answer—advertising. The company's persistent warnings are a form of advertising, says the McKeesport News. People are bound to pay attention to something that is constantly brought to their notice.

What makes certain court cases big? What draws enormous crowds to tabernacles? What makes people familiar with events of other countries, far, far off?

Advertising is the answer to every question.

Advertising will reduce the number of accidents at crossings just as surely as it sells merchandise. Without newspapers successful merchants would be under a handicap in disposing of goods as big as war generals were before the telegraph, the telephone and the wireless.

Advertising is as essential to success in business and life as are stores, wares and food. That's why millions are spent every year in advertising.

One of the leading features of the state Health department's work in this state is its educational campaign. This is a means that has aided in bringing the department to its present high state of efficiency as much as anything else. Dr. Dixon and his corps of assistants believe in publicity, and they have been showing intelligence in this respect. Not for instance the way in which they are advertising the department at the Washington fair.

Highway signboard advertising is doomed along state highways. This only the forerunner. The days of the signboard are passing. Merchants who advertise in this way have not mastered the advertising problem at all. As one exchange says: "The best publicity for the money is found in the newspapers of known circulation and influence. They reach the household every day and every day their message is delivered right in the home, direct from the store, fresh from the press."

An American long-time resident in Latin America gives his opinion that the attempt of the administration to secure the help of Latin American governments in the Mexican case will be taken in those countries as an indication of the weakness of the United States. We move to amend by making it read: "Weakness of the Wilson administration and policy", says the Washington Observer.

Dr. A. D. Dean, of New York this week at the Tri District Teachers' Institute pleaded earnestly for a change from the system by which children are now educated. He thinks greater attention should be given to vocations. With the introduction of typewriting, bookkeeping, manual training and domestic science the schools are getting nearer to his ideal.

Electric Sparks

Wonder if the governors in that Boston convention will attempt to tell the Georgia governor how they cleaned out their states.

* * *

If Noah were to return to earth again he would perhaps seriously consider the building of another ark—Connellsville Courier.

* * *

Most Time for 'Em Now

A canvas barn a painted tree,
A slow New England drawl!
A large square room with two or three
Worked mottoes on the wall;
A hint of wicked city life
By someone in the cast,
Who plays an honest farmer's wife
With something of a past.
A man from town whose shirt is clean
And has at least two suits,
To brighten up the rural scene
Of overalls and boots.
A cow, if one can be secured,
A soft nosed mare, named Bess:
A dog or two and you're assured
Unqualified success.
Just take these few ingredients
And mix them as you may,
And keep them free from common sense
You'll have a rural play.

—Roy K. Moulton.

What has become of the old-fashioned candidate who passed the cigars when he asked your vote and what will become of him when women get the vote.

PICKED UP IN PASSING

An exchange prints the following ten popular office rules:

Gentlemen upon entering will leave the door wide open or apoligize.

Those having no business should remain as long as possible. Take a chair and lean against the wall to prevent it from falling on us.

Gentlemen are requested to smoke especially during working hours. Tobacco and cigars of the finest brands will be supplied.

Spit on the floor—the cuspidors are only ornaments.

Talk loud or whistle, especially when we are engaged. If this has not the desired effect sing.

If we are in a business conversation with anyone, gentlemen are requested not to wait until we are through but join in as weare particularly fond of speaking to half or dozen or more at a time.

Profane language is expected at all times, especially when ladies are present.

Put your feet against the table or lean against the desk. You will be of assistance to those who are writing.

Persons having no business to transact will call often or excuse themselves.

Should the loan of money be desired, do not fail to ask for it, as we do not require it for business purposes, but merely for the sake of smoking.

In a western town the attorney for the gas company was making a popular address. "Think of the good the gas company has done! he cried. "If I were permitted a pun, I would say in the words of the immortal poet, Honor the Light Brigade!"

Whereupon a shrill voice came from the rear, "Oh, what a charge they made!"

Bits of Byplay

By Luke McLuke

Copyright, 1915, the Cincinnati Enquirer

Should Say Not!

The bullseye lets most any gink
Shoot at it for a lark;
But, though it does this, do not think
It is an easy mark.

His Opinion.

"What do you think of the war in Europe?" asked the old fogy.

"General Sherman beat me to my opinion," replied the grouch.

Sad!

Consider the poor weather man,
For him my sad heart aches;
For, though he does the best he can,
We print all his mistakes.

Huh!

"How many cuss words are there in the English language?" asked Brown.

"I don't know," replied Jones. "Why don't you ask Smith?"

"Does Smith know?" asked Brown.

"He ought to," replied Jones. "He owns a second hand automobile."

This Is the Life!

Oh, see the poor man suffer! My!
Why does he groan and twist and sigh?
He is a funny man, and, folks,
He's thinking up tomorrow's jokes.

The Wise Fool.

"Human nature is a strange thing," observed the sage.

"It certainly is," agreed the fool. "People are so busy talking about the one time when you were wrong that they forget all about the thousand times when you were right."

All Together!

It may turn wet,
It may turn dry,
But don't forget
To swat the fly.

Get In Line, Girls; Don't Crowd!

Frank Swisher will teach you the modern dances for $5. Call at his blacksmith shop.—Ad. In Walnut Grove (Mo.) Bee.

Well, She'll Get Our Vote.

Dear Luke:—I desire to nominate Miss Oma Corn of Willow Wood, O., for yell leader of the Names Is Names club.—G. O. P.

In Which Mr. Grunde Explains Everything.

The Editor.—In regard to the case so fully reported in the papers of Hoppe versus Grunde there are some things I want to make clear. In the first place I was not planning to run away with Mrs. Hoppe, as stated. She asked me to buy her a ticket to a moving picture show, saying she had no money. I was not running away from Hoppe, either, but only to avoid arrest. The black eye on which the reporters commented was not received from the hands of Hoppe, but from an incident while splitting wood. Hoppe and his friends attacked me in the back at the theater, and some of them were holding me while Hoppe did all the damage he managed to do.

Our Daily Special.

A grass widow is never as green as she looks.

Luke McLuke Says:

Every old maid believes that a child should get a good spanking about nineteen times a day.

Women are so anxious to worry over trifles that they go and marry them.

Our idea of a battle royal would be to herd all the knockers into one ring and make them fight it out.

Some men are so anxious to see stockings on a rainy day that they will stand with their backs to a window display of ladies' hosiery when there are girls passing.

A boy baby gets mad when he is kept out late at night and yells to go home. But it is different after he grows up and has babies of his own.

A man will admit that he is liable to make mistakes until he happens to make one, and then he insists that he is infallible.

After a man gets over a hard spell of sickness he takes a great delight in telling how high his fever went, and every time he tells it he adds a degree or two.

Before they are married all she hears him talk about is his poor heart. After she gets him all she hears him talk about is his poor liver.

What has become of the old fashioned man who called his wife the "old lady?"

It is none of our business. But it seems to us that some of the dames who think they are shining in society were cut out for shining in the kitchen.

When your creditors are waiting for you to come across you can always sit down and remind them that patience is a virtue.

When the devil can't get you to lie about other things he gets some friend to ask if you are afraid of your wife.

Are We Up-To-Date?

You would say that the Panama-Pacific Exposition at San Francisco, California was up-to-date wouldn't you? The texts on bookkeeping, shorthand and penmanship used in the Standard Commercial School at the Panama-Pacific Exposition are the same as those used in the Douglas Business College.

These books were selected by men with national and international reputations—men who had no "Axe to grind." They selected the best because it was the best, and because it was up to date.

The Douglas College has always kept in step with the march of progress. Obsolete methods have been discarded and new and better ones adopted as they are discovered.

If you want the best in commercial education—a training that will enable you to forge your way to the front, out-classing all rivals, then enroll in this school.

Experienced teachers, modern equipment, up-to-date methods and thorough instruction will soon fit you for a desirable position. The cost is nothing compared with your increased earning power as a Douglas graduate.

Ask for our free catalog and proof of our claims.
School opens August 30th.

AGE NO BAR

Everybody in Charleroi is Eligible.

Old people stooped with suffering.
Middle age, courageously fighting.
Youth protesting impatiently;
Children, unable to explain;
All in misery from their kidneys.
Perhaps a little backache first.
Urinary disorders, dropsy may quickly follow.

Doan's Kidney Pille are for weak kidneys.

Are endorsed by thousands.

Here's Charleroi testimony.

Mrs. W. McBride, 760 Crest avenue, Charleroi says: "One of the family was in misery from dull pains in the back. Doan's Kidney Pills were used and they brought great benefit. Later there was a return of the old trouble and less than one box of Doan's Kidney Pills, procured from Piper Bros., Drug store removed the pain in the back and there has been no suffering since. We think there is nothing equal to Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McBride recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

You can rent Electric Vacuum sweepers for $2.00 per day at the Coffield Motor Washer company, 608 McKean avenue. Just phone 155—W and we'll send one to your home. Have you any washers or cleaners to be repaired?

LUNG TROUBLES

Have you heard of the marvelous Potasafras treatment which is meeting with such wonderful success? Price $2.50 for a month's treatment. Full information can be secured from

Henning's Drug Store
Charleroi

TRAINING TO START SOON BY PITT TEAM FOR COMING SEASON

The University of Pittsburg football squad will start training at "Camp Hamilton," Windber, September 8. About 40 men will be taken to camp at the start although this number will be weeded down to about 30 as the work progresses and the coaches are able to sort out the good from the bad.

The University's football prospects this year look exceedingly bright. Almost all the stars from the great 1914 team which swept everything before it are back and the new material seems to be exceptionally promising. Add to this the fact that the University has secured Glenn S. Warner, the famous Cornell and Carlisle Indian coach, to teach the Blue and Gold proteges football and it is little wonder that the Steel City rooters are looking for their banner year on the gridiron.

Pitt's schedule this year includes eight games, the leading new attraction being a game with University of Pennsylvania at Franklin field, Philadelphia. This is the first meeting in football between the two largest universities of the Keystone state. It is played October 23. The leading games in Pittsburg are with Washington and Jefferson and Pennsylvania State College. W. & J. is played November 6 and Penn State Thanksgiving Day as usual. Other games are shown in the schedule which is as follows:

October 2, Westminister College at Forbes field; October 9, United States Naval academy at Annopolis, Md.; October 16, Carlisle Indians at Forbes field; October 23, University of Pennsylvania at Franklin field, Philadelphia; October 30, Allegheny college at Forbes field; November 6, Washington & Jefferson college at Forbes field; November 13, Carnegie Institute of Technology at Forbes field; November 25, (Thanksgiving Day) Pennsylvania State College at Forbes field.

The University has announced that the one year residence rule will affect all varsity teams, starting September, 1916 but this will not apply this year in any game except that with the University of Pennsylvania.

STATUS OF NEUTRALIZED ITALIANS STILL IN DOUBT

Secretary Lansing has announced that the state department still is unable to give any assurances that the naturalization of Italians in the United States would protect them from impressment into the Italian army if they returned to Italy.

So far as the department had been advised Mr. Lansing explained, Italy never had altered its attitude that naturalization of an Italian in another country did not exempt him from military service in Italy.

PITTSBURG PIRATES, IN SIGHT OF LEAD TO PLAY HOT GAMES LABOR DAY

Labor Day, Monday, September 6, the Pirates stage the last holiday event of the 1915 season at Forbes Field with the on-rushing Cincinnati Reds. As usual there will be two games one in the morning at 10:30 o'clock and the other in the afternoon at 3 o'clock.

The National League race is still the mad free-for-all that it has been ever since the opning gun was fired, with the exception probably that it is hotter now and more complicated than ever, due to the sudden awakening of the Cincinnati club which is fast forcing its way into the limelight as a flag contender.

The Corsairs are at present battling their way through the east and while they have been severely handicapped lately by the injury of Scoops Carey and the sickness of the brilliant young Mamaux still they are doing yoemen's work and with Mamaux again back in the lineup and Carey sure to be before the return home they should be in fine fettle to give the hustling Reds an upset and improve their own position at the same time.

If the Ruccos can return home September first within hailing distance of the league leader and they are certain to do so, there is no reason why, with their long stretch of games at home in September, they should not make one of the strongest bids for the 1915 pennant; especially as the Philadelphia and Brooklyn teams, the ones most feared, will be on the road practically all of September.

The series with the Reds will have much to do with the chances of the Buccos and the Reds as flag contenders and it will also mark the last appearance of the Cincinnati aggregation at Forbes Field this season, so there can be no doubt as to the battles being most strenuous ones from first to last. Mail orders for these games will be filled as usual by the Pittsburg Baseball Club.

WEATHER BUREAU SAYS CROPS ARE NOW STRONG

The crop summary for Pennsylvania for the week issued by the local weather bureau Wednesday, is as follows:

"The rainfall distribution was very uneven, ranging from a light sprinkle to more than five inches in some places. The very heavy rainfalls were confined to a few small districts however and as a whole the conditions were favorable for crops and for out of doors pursuits. The temperatures were low during the first part of the week, with light frost reported from a few northwestern stations. Plowing, threshing and potato diiging were in progress.

"Oats are turning out in better condition than was indicated last week, very little of the grain being moldy although much of the straw is badly damaged. Wheat is also yielding better than was anticipated in most sections. Potatoes are yielding well, but there are reports of rotting from many places. The yield and quality will however, be considerably above the average.

"A large crop of potatoes of the finest quality is being gathered, and market prices are the lowest for many years. Winter apples are good in some sections, but as a rule they are reported to be only about half a crop. The second crop of hay has been mostly out in the northern counties and except for some losses by the wet weather the crop is excellent."

Use Zinc as Nuggets.

A shoveler in one of the Joplin zinc mines who had seen in the movies how the gold miners bought what they needed with gold nuggets, recently laid a small chunk of zinc ore on a bar counter and called for a beer. The bartender served the drink to him and laid down 20 cents in change, and of course the crowd laughed and cheered.

Such is the spirit of the Joplin zinc boom, with crude zinc ore now worth seven cents a pound, which is about 50 per cent higher than the refined product spelter has averaged for many years.—Wall Street Journal.

A Philosopher's Nightcap.

Many years ago I was in a northern country house in which Herbert Spencer was staying. At that time he suffered from sleeplessness, and one night on going to bed he said to me: "I am about to drink some hot brandy and water in order to restore the periodicity of my somniferous functions."—London Spectator.

ASSISTANT PRINCIPAL NAMED AT BEALLSVILLE SCHOOL

At a meeting of the Beallsville school board held at Beallsville Friday evening, H. M. Matthews, assistant principal of the Canonsburg high school, was named asistant principal of the Beallsville High School to take the place made vacant by the resignation of Miss Elizabeth Hawkins. The salary which Mr. Mathews will receive was not made public.

Miss Hawkins has accepted the position of assistant principal in the high school at Warwood, W. Va., She tendered her resignation quite unexpectedly this week and since that time the directors had been in quandry as to where to find a suitable teacher to take her place. Mr. Mathews was suggested as a fit man for the assistant principalship and was promptly elected.

The joint reunion of seven well known families planned for today was not held because of the inclement weather and arrangemets are being made for a committee meeting to be held the first of next week to plan for a reunion to take place Saturday, September 13.

CANOE CLUB HOLDS ITS FIRST ANNUAL CORN ROAST

The Charleroi Canoe club held its first annual corn roast at its boat house Monday evening. About 45 were present, including members and friends. Moonlight canoeing was enjoyed after the supper and a quartet consisting of Marion Kinder, Horace Nutt, Joseph Pearson and Tom Preston sang several numbers, both at the boat and while in a canoe on the water.

NATIVE LIFE IN NEW GUINEA

Magic, Marrying and Murder Seem Closely Connected Practices Among the Innocent Aborigines.

The expedition led last year up the Fly river in British New Guinea by Sir Robert Clarke resulted in the discovery of some amusing customs, for the members of the party fell in with many who had never seen a white man before.

These natives practice magic which they call kuri-kuri—which kills men by suggestion. "No man among them," says Sir Robert, "is supposed to die naturally. The magic man tells him he is going to die, and he promptly does die. It may not be all hypnotism. Supposing a man is told that he is to die from a snake bite, it is not difficut to make certain of his death.

When a man is dead his relatives must get a head so that his spirit will rest in peace. They go out on a murdering expedition and get their head from the nearest tribe they can surprise. It doesn't matter to them whether the head is that of a man, woman or child.

"The girls will not marry a man unless he has a certain number of heads and has killed a man in personal combat. When a new house is built there must be more killing, because the posts of the house have to be sprinkled with human blood. The hideous warfare never ceases, for a tribe which has been attacked must seek revenge.

"The continual fear of surprise attacks is shown in the character of the houses. These were built in the trees. They were rested on scaffold poles fifty to sixty feet from the ground, were beautifully thatched and were chiefly constructed of palm leaves. They were loopholed in the sides for arrows and holes had been left in the floor through which stones could be dropped on the heads of an enemy.

"Large quantities of stones are kept in the houses. These tree dwellers also wear a kind of bamboo cuirass, which is arrow-proof and would be shot-proof. The arrows used are about five feet long and are projected from very powerful bows. I don't think a white man could draw their bows. I have known a man to be pierced through by an arrow from a distance of 200 yards."—Pittsburgh Dispatch.

Use Zinc as Nuggets.

No Substitute is "Just as Good" as HORLICK'S, the Original

SUSPECT THAT NEAR BEER IS REALLY BEER

Samples of New Beverage Taken to The Westmoreland County District Attorney's Office and Chemist Will Make Analysis.

A new mixture or brew, placed on the market some time ago, and being sold in some of the smaller stores throughout Westmoreland county is causing considerable unrest in the office of the district attorney. One of the liquids, much resembling beer in appearance and enclosed in a bottle about the size and shape of a beer container, is labelel "Tis." It is also sold as "Near Beer," and other peculiar names.

A sample bottle of the brew was taken to the office of the commonwealth's attorney at Greensburg and on Tuesday morning Attorney Ward Eicher began searching for an expert chemist whom he expected would made an analysis of the contents of the bottle in search of alcohol.

It is confidently expected by the district attorney that the liquid that has been industriously sold in many towns of the county will be found to contain a certain percentage of alcohol. It is claimed by some that they have evidence that people who used the stuff rather freely beame intoxicated.

It is said the alleged "booze" is manufactured by a brewing company of good standing and is being sold by the hundreds of cases all over Western Pennsylvania.

PERSONALS

Miss Mollie Duffy of Pittsburg has been visiting at the home of Mrs. Thomas Cavenaugh of Crest avenue.

Miss Matilda Cavanaugh has returned from a visit with friends and relatives at Pittsburg.
